A RESOLUTION

We are going to buy or build a home this year. We now fully realize that paying rent is "poor business." But we do want a home where the environments are best. In a neighborhood where values are increasing and most important of all we want our home substantially built, artistically designed and economically arranged. Before we buy or build we will not forget What "Sterling" is to Silver "Mayfield" is to a Home.

Myrtle Trading Place.

Built by Mayfield Building and Improvement Company

This modern residence is located upon two lots on Montana street. It is built of Mt. Franklin blue stone and brick and contains seven delightful rooms in addition to the basement and reception hall. There is an elaborate colonnade between the reception hall and living room and also between the living room and dining room. Book cases with leaded glass doors are built into the colonnade and there is an elaborate buffet and beamed ceilings. All bedrooms, bath and hall are white enameled and the living room, reception hall and dining room are finished in brown stain. One of the features of this home is the front and side porch which are twelve feet wide.

VIEWING IT FROM THE INSIDE

Rope fastens with screw eyes outside of curtain at top, loops down around roller and up again through pulley. Then over to end pulley and both ends down together.

Pulling down on rope starts roller up. Can be held at any height by fastening ropes to cleat. In ordering state clearly which is the up and down measurement, and which is the distance across. Write for prices.

We manufacture any and all kinds of tents, awnings, curtains, shades, flies, stack and hay covers, wagon covers, paulins, bed sheets, etc. A full line of duck—light, heavy, wide and narrow.
